## Foreword

The Government of Tanzania (GoT) is committed to promoting, facilitating and providing integrated reproductive and child health services to men, women, adolescents, and children in Tanzania. Ensuring all women and men of reproductive age have access to quality family planning services is a priority, as it contributes towards the nation's health and social development goals, as reflected in the targets described in the Millennium Development Goals, Tanzania Vision 2025, the National Strategy for Growth and Reduction of Poverty II (MKUKUTA II, 2010), the Primary Health Services Development Program, and the National Road Map Strategic Plan to Accelerate Reduction of Maternal, Newborn and Child Deaths in Tanzania 2008 – 2015 (also known as the One Plan).

On July 11, 2012, His Excellency, President of the United Republic of Tanzania, Dr. Jakaya Mrisho Kikwete, attended the high-profile London Summit on Family Planning and made six commitments expected to double the number family planning (FP) users by 2015. These commitments are especially important in light of the release by the National Bureau of Statistics (NBS) of the 2012 Tanzania Population and Housing Census Report which showed that since 2002, the population has increased by 10million bringing the total population to 44 million. The rapid population growth has increased pressure on resources—particularly public expenditures on education, health, water and sanitation (especially in urban areas)—as well as other resources such as land.

In 2010, the Ministry of Health and Social Welfare (MoHSW) launched the National Family Planning Costed Implementation Program (NFPCIP) based on the goal of the One Plan to increase the contraceptive prevalence rate to a target of 60 percent by the year 2015. Progress in the two years subsequent to its launch, is promising. Most of the planned strategic actions were implemented or are currently in progress. Highlights include the following: contraceptive security, a major challenge prior to the launch of the NFPCIP, improved considerably with funding available for commodities resulting in fewer stock-outs at various levels; the inclusion of a specific FP target in the Medium Term Expenditure Framework (MTEF); and the inclusion of targets for total fertility and population growth rate reduction in the MKUKUTA II. Furthermore, the Tanzania Demographic and Health Survey 2010 reported an increase in the contraceptive prevalence rate to 27%. However, it also showed that the unmet need for family planning also increased to 25% with a considerable variation in CPR among regions; the Western and Lake Zone reported contraceptive prevalence below the national average.

The Government of Tanzania continues to be strongly committed to the successful implementation of the NFPCIP through its conclusion in 2015. All stakeholders have an obligation to continue working together to reposition and reinvigorate access to and use of family planning services in Tanzania. We would like to thank all stakeholders for working to achieve the development of this plan. Together, we can improve the health of Tanzanian mothers, babies, and children, and build a stronger and more prosperous nation.

Charles A. Pallangyo  
**Permanent Secretary**

## Acknowledgment

The Ministry of Health and Social Welfare (MoHSW) would like to express sincere gratitude to the many individuals and Development Partners who worked with the Ministry to revise the *National Family Planning Costed Implementation Program* (NFPCIP). The implementation of the NFPCIP and the modifications to it captured in this updated version are a result of extensive consultations and collaboration with various stakeholders, including other sector ministries, development partners, professional associations, and interested organizations as well as committed individuals, under the leadership of the Reproductive and Child Health Section (RCHS) of the MoHSW and technical guidance of the National Family Planning Working Group. The MoHSW also appreciates the participation and contributions of regional and district representatives for their inputs to this updated version of the NFPCIP.

The MoHSW acknowledges the financial and technical support from the United States Agency for International Development (USAID), for coordinating the development of this updated version of the NFPCIP through the Program Research for Strengthening Services (PROGRESS) project; FHI360 which provided secretariat support, technical guidance, and costing; and through the Health Policy Initiative Project (Futures Group) and the Engender Health-RESPOND Project which provided revised projections. Furthermore, the Ministry greatly appreciates the technical support from African Medical and Research Foundation (AMREF), “Chama Cha Malezi Bora Tanzania (UMATI)”, Deutsche Stiftung Weltbevoelkerung (DSW), Elizabeth Glaser Pediatric AIDS Foundation (EGPAF), Health Promotion Tanzania (HDT), Jhpiego, John Snow Inc., Johns Hopkins University, Marie Stopes Tanzania, PATH, Pathfinder International, Population Service International, Tanzania Marketing and Communications Company (T-MARC), and the United Nations Population Fund(UNFPA)for co-leading the revisions of strategic action areas, together with the Reproductive and Child Health Section (RCHS) staff.

The Ministry recognizes and acknowledges the participation of many individuals from its Development Partners Group for Health and from sectoral ministries (Ministry of Finance; Ministry of Community Development, Gender and Children; President’s Office Planning Commission; Medical Stores Department; and the National Bureau of Statistics).

Finally, the Ministry would like to acknowledge the RCHS for leading the coordination of all stakeholders engaged in the development process of this document.

**Dr. Donan W. Mmbando**  
**Chief Medical Officer**

## Introduction

This document describes revisions to the *National Family Planning Costed Implementation Program* (NFPCIP) launched by the Ministry of Health and Social Welfare (MoHSW) in March 2010. This updated version of the NFPCIP summarizes past efforts and future plans to ensure that high-quality, accessible, acceptable, and affordable family planning services are provided to the citizens of Tanzania and specifically outlines a plan for achieving an operational target of the *One Plan*—to increase the contraceptive prevalence rate (CPR) to 60 percent by the year 2015.

The process of updating the NFPCIP was adjusted so that it could accommodate description of activities to fulfill implementation of FP2020 country commitments made by his Excellency President Dr. Jakaya Kikwete while attending the high-profile London Summit on Family Planning in July 2012. The Summit launched FP2020, a Global Initiative to build partnerships for sustaining goals and commitments announced at the Summit. The President made six commitments that will double the number family planning users by 2015 (see box). Subsequently, stakeholders developed priority activities to translate the commitments into action. This updated NFPCIP incorporates these FP2020 activities including scaling up integration of FP into other health services; increasing access to FP by young people and strengthening access to FP information, services and supplies through amplified outreach services. Similar to the NFPCIP, the FP2020 Country Plan also focuses on geographical areas that the MoHSW and FP stakeholders have identified as areas that need maximum support to expand FP services and raise the CPR.

Furthermore, this version of the NFPCIP provides an interim review of progress toward the CPR target and describes the realignment of priority interventions and modifications to the NFPCIP in response to lessons learned, emerging issues, and updated projections from data sources published after the NFPCIP launch in 2010. This version also captures the latest recommendations from the MoHSW and National Family Planning Technical Working Group to Reposition Family Planning in Tanzania.

The updated NFPCIP features revised demographic projections based on new data from the following sources:

- ◆ 2010 Demographic and Health Survey (*DHS, April 2011*)
- ◆ 2012 Population and Housing Census (*March 2013*)
- ◆ HIV/AIDS and Malaria Indicator Survey 2011-13 (*March 2013*)
- ◆ Semi-annual review meetings with the National FP Technical Working group
- ◆ Data compiled by NFPCIP stakeholders through the NFPCIP implementation database

Finally, this updated version of the NFPCIP highlights the following key changes:

1. Recast *Strategic Actions* from the original NFPCIP as *Strategic Results* to capture the interim progress toward the *Goal*
2. Established progress toward *Annual Targets* as the *Measure of Success* for achieving the *Goal*
3. Defined *Indicators* to improve tracking of *Outputs* and aligned *Activities* to match the *Strategic Results* to which they contribute
4. Expanded Strategic Action Area IV from *Advocacy* to *Advocacy & Strategic Communication*
5. Re-prioritized activities in the NFPCIP (e.g., focus on accomplishing and tracking activities in the NFPCIP; omitted activities where potential impact toward achieving results is low)
6. Improved assumptions for costing

### Tanzania Country Commitments, FP 2020

- 1) Ensure strong political commitment to FP at all levels, underscoring that FP is a core element for development
- 2) Increase national financial commitment through appropriate allocation & disbursement for FP commodities to reduce donor dependence
- 3) Strengthen contraceptive commodity security & logistic systems to ensure continuous availability of quality contraceptives with desired method mix
- 4) Implement new strategies to address regional disparities in FP coverage as well as inequalities in access to FP that adversely affects the poorest women & youth
- 5) Expand access to quality FP services through public & private facilities, outreach & strengthened community based services
- 6) Build community & leadership capacity to support FP through mobilization & education campaigns following Green Star re-launch

## Overview of the NFPCIP

Recognizing the need to reposition family planning in Tanzania, the MoHSW developed the NFPCIP and launched it in March 2010. The development of the NFPCIP was guided by the vision and mission established in the Reproductive and Child Health Policy Guidelines of 2003. Furthermore, the goal of the NFPCIP is guided by the *National Road Map Strategic Plan to Accelerate Reduction of Maternal, Newborn and Child Deaths in Tanzania, 2008–2015* (One Plan) as well as by the HSSPIII. Both strategic plans recognize family FP as essential to improving maternal, newborn, and child health. Although the overall investments in the health sector called for in the HSSPIII, PHSDP, and HRHSP will strengthen the foundation for FP, the specific aim of the NFPCIP is to identify the activities to be implemented and additional resources that will be needed to make quality FP services more accessible to and equitable for all of Tanzania's people.

The NFPCIP clearly defines priorities for strategic actions, delineates the activities and inputs needed to achieve them, and estimates the costs associated with each as a basis for budgeting and mobilizing resources required for implementation at different levels by organizations and institutions over the 2010–2015 period. In addition, the NFPCIP is intended to serve as a guide for development partners and implementing agencies on areas of need to ensure the success of the national FP program.

More specifically, the NFPCIP will be used to:

- Inform policy dialogue, planning and budgeting to strengthen FP as a priority area in the National Development Agenda;
- Prioritize FP program strategic actions and activities for implementation at different levels of the health system;
- Enable the MOHSW and other GoT sectors to understand the budgetary needs to implement a FP program to reach projected targets, and to make projections for the future as new demand for FP is generated;
- Mobilize and sustain quality resources (human, financial, technical, commodities and equipment) that are essential for achieving cost-effective and scaled-up services for FP; and
- Provide benchmarks and indicators that can be used by GoT and development partners to monitor and support the FP program;

## Vision, Mission, Goals and Objectives of the NFPCIP

**Vision:** A healthy and well-informed Tanzanian population with access to quality reproductive and child health services that are acceptable, affordable, and sustainable and provided through efficient and effective support systems.

**Mission:** Promote, facilitate and support in an integrated manner the provision of reproductive and child health services to men, women, adolescents, and children in Tanzania.

**Goal:** Increase the CPR among women of reproductive age from 28 percent in 2010 to 60 percent by 2015.

The denominator used for the CPR is women of reproductive age and not married women of reproductive age (MWRA). This is to take into consideration all women regardless of their marital status. According to the DHS 2004–2005, the CPR among MWRA for all methods is 26.4 percent, while the CPR for women of reproductive age for all methods is 28 percent.

Although guidance is also provided by the HSSPIII, which has a goal CPR of 30 percent by 2015, the higher CPR goal of 60 percent specified by the One Plan was chosen so that repositioning FP can be addressed more aggressively and, as a result, will have greater potential impact on reducing maternal and newborn mortality and improving child survival.

Furthermore, there is a wide degree of variation across regions in current CPR as well as considerations of culture and context, such as the availability of infrastructure, human resources, service modalities, and current demand. These factors increase the challenges to be addressed and the level of resources that will be needed to reach the 60 percent CPR One Plan target in all but two regions by 2015. The regional variations and the different scenarios for repositioning FP are discussed in more detail in the Analysis of Demographic Determinants of Resource Requirements section.

### **Strategic Results:**

The NFPCIP results reflect the five major program components that must be strengthened to address the issues and challenges to reposition FP as a national priority for health and development.

1. Expanded availability and choices of safe, effective, acceptable, and affordable **contraceptive methods**.
2. **Capacity building** of providers to deliver and support safe, effective use of FP methods and services.
3. Strengthened **service delivery systems** and increased options for delivery of quality, affordable, and sustainable FP.
4. Reinvigorated **advocacy** to increase visibility of and support for FP as a key investment for improving the lives, health, and well-being of Tanzania's people.
5. Strengthened **health systems management and M&E** of the national FP program.

## Demographic Determinants for Resource Requirements

Demographic and health indicators provide the foundation for projecting the resources required to achieve the desired CPR goal of 60% by 2015. The projection exercise provides information on the following demographic determinants for estimating resource requirements: (i) the required annual rate of change in CPR to reach target; (ii) the number of new acceptors required to reach the target and the profile of the method mix each year; (iii) the annual method mix targets; and (iv) the amount of contraceptive commodities needed each year, by method.

Since 2010, there have been a number of reports on Tanzania's demographic and health profile, including the TDHS 2010, THMIS 2011-2012, and the Census Report 2012. To facilitate comparison, the key indicator data used in the original NFPCIP is shown in Table 1 alongside updated data from more recently published sources. The revised data served as the basis for making several changes to the original NFPCIP assumptions. The increase in CPR reported in the 2010 DHS indicates progress towards the CPR goal, however greater effort is required to match the required increase of 4.1 annually through 2015. The GoT and stakeholders are hopeful that renewed and continuing support of the strategies to reposition FP outlined in the NFPCIP will accelerate progress toward the 60% goal.

Generally, the updated data reflect the same trends noted in the original NFPCIP. The population continues to grow and is projected to nearly double by 2038. Tanzania has a young population; nearly half the population is less than 15 years old. Early childbearing and continued high rates of fertility will increase stresses on health and education systems, availability of food and clean water, natural resources and the environment, and economic growth and development. These also contribute to adverse social consequences such as gender inequity. Although the indicators show improvement, early and frequent childbearing continues to have serious health consequences for girls and women, contributing to higher rates of complications and death. Also, although the CPR has improved, the unmet need for FP has also increased. Addressing the unmet need for FP will help reduce unintended pregnancies, prevent transmission of HIV, and contribute to achievement of other Millennium Development Goals (MDGs).

**Table 1. Tanzania Demographic and Health Indicators, 2010 and 2013**

Indicator	2010	2013
Population in millions, Tanzania mainland (2002 census and 2012 census)	34.4	44.9
Projected population in 2025, in millions (NBS—based on 2.9%/year growth in 2010; re-calculated in 2013 based on 2.7%/year reported in 2012 census)	65.3	63.5
Annual population growth rate (2002 census and 2012 census)	2.9	2.7
Percent of population under age 15 (2002 census; 2011-12 THMIS)	47.0	47.7
Percent of women age 15-19 have begun childbearing (2004–05 and 2010–11 DHS)	26.0	23.0
Total fertility rate (2004–05 and 2010–11 DHS)	5.7	5.4
CPR, currently married women, modern methods (2004–2005 and 2010–11 DHS)	20.0	27.4
Unmet need for FP, currently married women (2004–2005 and 2010–11 DHS)	21.8	25.3
Maternal mortality per 100,000 live births (2004–05 and 2010–11 DHS)	578	454
Infant mortality per 1,000 live births (2007 THMIS; 2010–11 DHS)	58	51

Described below are the considerations and assumptions used in this document to revise the CPR projections and determine the resources needed to meet the One Plan target of 60 percent CPR by 2015.

## Trends in the Contraceptive Prevalence Rate

### a. Annual Growth in CPR

The analysis used to project CPR and method-mix targets in the original NFPCIP was based on data from the Tanzania DHS conducted in 2004–2005. To estimate the CPR for 2009, the developers assumed that the CPR would remain constant at 0.6 percentage points annually because that was the rate of growth in CPR between 1999 and 2004–2005. However, the 2010 DHS shows that the actual growth in the CPR was 1.41percentage points which is higher than what was originally projected through 2009.

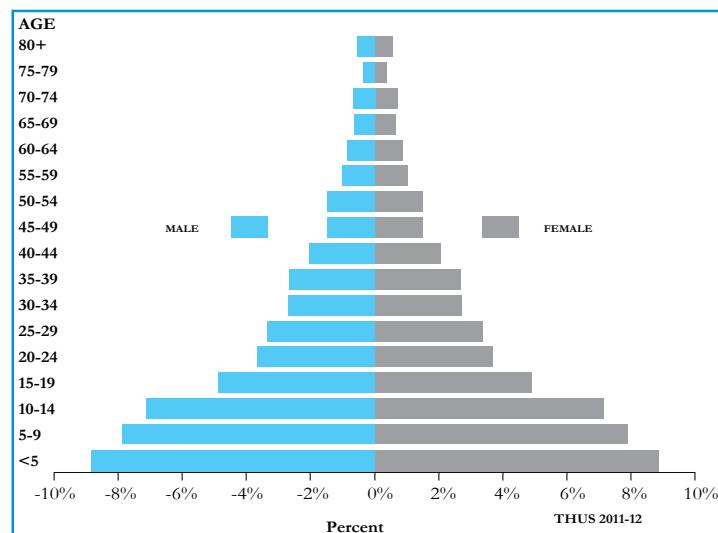

An important factor in the NFPCIP projections is that the total number of women of reproductive age (WRA) expands each year. This is because of the age structure of Tanzania's population, graphically depicted in the Population Pyramid, Figure 1. As mentioned in Table 1, almost 50 percent of the population was under 15 years of age, 47.0 percent in 2004–05 and 47.7 percent in 2011–12. All of the girls who will reach reproductive age between now and 2015 have already been born, and each year an ever-increasing number of girls will reach reproductive age. A number of women will also 'age out' of reproductive age each year, but because of the population pyramid, that number will always be smaller than the number of girls entering reproductive age. This growing denominator further stresses the FP program to deliver more services to achieve the 60 percent CPR goal by 2015 and reinforces the importance of implementing the NFPCIP programs targeting young people.

Extrapolating from the 2010 TDHS and population projections, it is estimated that there were 2.8 million family planning users in 2010, including users of traditional methods. To reach the One Plan target would require nearly doubling that number to 5.4 million users in 2015.

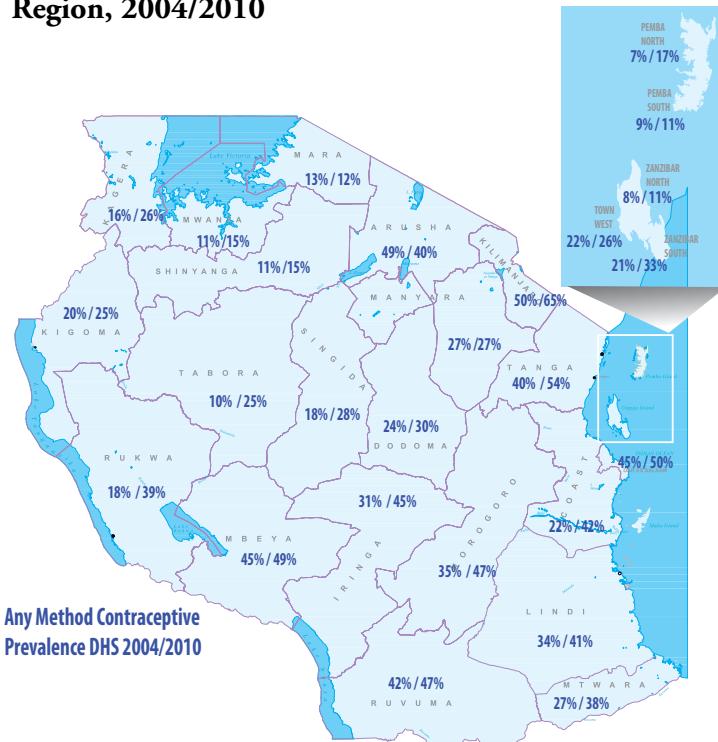

### b. Regional Variations in CPR

The map in Figure 2 shows the wide regional variations in CPR for currently married women using any method at the time of the 2004 and 2010DHS. In 2004, CPR for all methods ranged from a low of 7.2 percent in the Pemba North region to a high of 49.5 percent in Kilimanjaro region. By 2010, the CPR had increased substantially in a number of regions including Kilimanjaro where the CPR for all methods was 64.8 percent. As noted in the original NFPCIP, a number of factors influence the regional variation in CPR, including availability of infrastructure and skilled providers, social and cultural norms, and the relative level of priority given to FP by communities and local governments. The dramatic changes in several regions demonstrate how quickly a region can increase its CPR and contribute to meeting the One Plan target.

**Figure 1. Population Pyramid for Tanzania**

**Figure 2. Any Contraceptive Method Prevalence by Region, 2004/2010**

### c. Regional Variations in Method Mix

Table 2 shows that the mix of FP methods also varied by region at the time of the 2004–05 and 2010 DHS. In 2004-05 the Kilimanjaro region, with relatively stronger infrastructure and more highly trained providers, for example, had the highest rates of use for long-acting and permanent methods(LAPMs), whereas pills and condoms were more likely to make up the majority of the method mix in regions with less well-equipped facilities and less-skilled staff. The data from the 2010 DHS show that while there have been some changes within the regions, the method mix remains extremely diverse across the regions.

**Table 2. Contraceptive Method Mix by Region, DHS 2004–05 and 2010–11**

Region	Female Steril.		Pill		IUD		Injectables		Implants		Condom		LAM		% Change in CPR	
	2004	2010	2004	2010	2004	2010	2004	2010	2004	2010	2004	2010	2004	2010	All Method	Modern Method

### Population Growth and Needs for FP

#### a. Regional Stratification of CPR and Total Demand to Reach One Plan Target

Table 3 shows the projected total population for Tanzania in 2004 at 36 million, and the numbers and percentages of the population residing in each region. It also shows the CPR, use of any method by currently married women, and the total demand (CPR plus unmet need) in each region at the time of the DHS 2004–05 and DHS 2010, with an overall CPR of 26.4 percent and 34.4 percent respectively. Note that with the exception of one region, total demand increased from 2004 to 2010.

The table groups the regions into five strata based on the CPR. For each stratum, it shows at the time of the 2004–05 DHS the relative contribution that each stratum made toward achieving a national CPR of 60 percent. The table also shows the stratum-specific CPR that must be reached by 2015 to achieve the One Plan target. For example, Stratum

1 shows Kilimanjaro and Arusha having the highest CPRs in 2004–05. These two regions account for 9.7 percent of Tanzania’s total population. For the country to reach 60 percent CPR overall, the regions in Stratum 1 will need to reach a CPR of 72 percent by 2015. The stratum with the lowest CPR, and with almost a quarter of Tanzania’s population, will need to increase its CPR from around 11 percent in 2004–05 to 49 percent by 2015 for the country to reach its One Plan target. All regions will need to increase demand to reach their targets, but meeting the current total demand in each region would make a significant contribution to reaching the targets.

Although not shown in this table, the 2010 TDHS indicator—intention to use a method of contraception in the future—is another important indicator of the potential demand for family planning services. Fifty-four percent of currently married women aged 15–49 who are not currently using contraception intend to use it in the future. Seventy-eight percent of women not currently using contraception also report that they did not discuss family planning with a fieldworker or with staff at a health facility. These data indicate that there are ample opportunities for family planning initiatives in Tanzania to reach nonusers of family planning.

**Table 3. Population, CPR (2004–05 and 2010), and Total Demand with Regional Stratification and CPR Targets to Reach One Plan Target**

	Population (original NFPCIP)		CPR and Demand 2004-05 and 2010				Stratum Analysis (original NFPCIP)		
	Region	Projected Population	% Total Population	CPR, All Methods DHS 2004–05	CPR, All Methods DHS 2010	Total Demand DHS 2004–05	Total Demand DHS 2010	2015 CPR Target	% Total Population

#### b. Annual CPR Targets, by Region

Table 4 shows the revised annual CPR, all methods for all sexually active women, that each region needs to reach to achieve the One Plan target of 60 percent CPR by 2015. For comparison, the rows at the bottom of the chart show the original annual rate increase projections (0.6 CPR from 2004-2010; 4.8 CPR from 2011 –2015) along with the revised projections which were recalculated based on the observed CPR from the 2010 DHS. The last row shows

the observed annual rate of increase 1.41 from 2004-2010 and CPR (34.4% for currently married women and 50.6% for sexually active unmarried women, or 36.1%, the weighted prevalence for these groups as a whole). The observed prevalence of 36.1% in 2010 is comparable to the target of 35.9% set in the original NFPCIP projections to reach 60% all-method CPR in the year 2015.

These revised projections serve as the basis for estimating the commodities and other inputs that will be required to deliver the projected volume and mix of FP services. Although not all of the regions will reach the One Plan target by 2015, the nation as a whole would meet the 60 percent target at this growth rate in CPR. In all, 13 regions will meet or exceed 60 percent CPR at this rate of growth; the remainder will achieve lower CPRs.

**Table 4. Growth in CPR, All Sexually-Active Women, All Methods, Assuming a 4.1Percent Increase from 2010 to 2015 and Reaching National Target in 2015**

Region	2004-2005 DHS		Revised NFPCIP Annual Projections by Region

Annual rate of increase			1.41% actual annual rate								4.78% projected annual rate			

\* At the time that the original projections were developed, the most recent national surveys were the 2004/05 Tanzania Demographic and Health Survey (TDHS) and the 2003/04 Tanzania HIV Indicator survey (THIS).

\*\* The 2010/11 Tanzania Demographic and Health Survey (TDHS) subsequently provided information about the actual CPR for the early projections and information needed to revise the projections.

**c. FP 2020 Analysis to Identify Potentially High-performing Regions**

The FP2020 initiative provided another opportunity to focus efforts in regions of the country most likely to benefit from specific interventions already underway as part of the NFPCIP. Table 5 highlights 13 regions that are expected to contribute 36% of the 60% CPR target. These regions were identified for one of three reasons. Five regions, Mwanza, Mara, Kigoma, Shinyanga, and Tabora were identified because have always been seconded by the FPTWG of the RCHS. Three regions, Dar es Salaam, Singida, and Kagera were identified because they are high-yield areas that are especially likely to benefit from outreach interventions and services. Five additional regions, Mbeya, Iringa, Lindi, Mtwara, and Morogoro are areas with a potential high-yield as a result of youth-friendly services due to the number of higher-learning institutions. Appropriately targeted activities/interventions in these regions have a greater likelihood of success and are thus more likely to fulfil their potential contribution to the overall CPR goal of 60%.

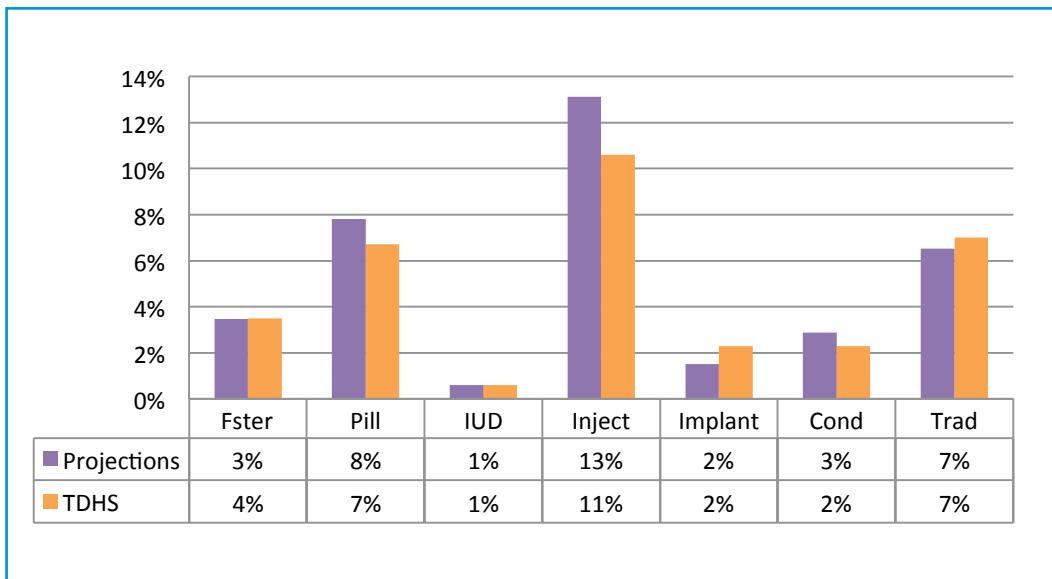

**Table 5. Potential Contribution of High-performing Regions to Achieving the 60% CPR**

Regions	CPR	Population per Region	% Total Population	Total Demand for FP (%)	% Relative Contribution	% Total Unmet Need for FP
Dar es Salaam	31%	4,364,541	10%	64%	6%	13%

<b>Total Population</b>		<b>43,625,354</b>			<b>60%</b>	

#### **d. Method Mix Targets by 2015**

Table 6 from the original NFPCIP (included below), set the method-mix targets to be achieved in each region by 2015 to meet the One Plan target. The analysis presented in this table, which is based on the method use reported in the 2004-05 DHS and the expansion in availability and demand for some methods occurring at that time in the regions, provides important data used to estimate the volume of contraceptive commodities that must be available each year. As shown in the figure below, these estimates were generally confirmed by the 2010 DHS and will continue to guide the assumptions related to contraceptive commodity needs.

**Figure 3: Method Mix Projections for 2010 vs. Actual TDHS 2010 Results**

The targets shown in Table 6 are the percentage levels that each method is expected to reach in each region, totalling 100 percent in each region. The projections take into account a variety of contextual factors, including sociocultural considerations, availability of infrastructure, and provider capacity, that are likely to influence provision and acceptance of each method. These targets also take into consideration the recommendations of the National Family Planning Working Group to shift use, wherever feasible, from less effective to more effective methods while maintaining the widest possible range of method choices. For example, targets assume a shift of some users from traditional to modern methods. Within temporary methods, some users are shifted from those methods requiring high levels of personal adherence (pills and condoms) to injectables. An overall shift to LAPMs is also assumed, especially in regions with better infrastructure and more highly skilled providers.

**Table 6. Contraceptive Method-Mix Targets, 2015, by Region, Based on Contextual Factors**

Region	Female Sterilization	Pills	IUD	Injectables	Implant	Condoms	Traditional
Kilimanjaro	16.0%	7.0%	9.0%	50.0%	10.0%	3.0%	5.0%
Arusha	3.0%	18.0%	3.0%	50.0%	9.0%	7.0%	10.0%

## Progress Report for the Period: July 2010 through June 2012

Efforts to monitor the implementation progress of the NFPCIP began in July 2010. The purpose of this monitoring effort is to assess progress in two areas, 1) whether the financial resources needed to implement the plan are mobilized and expended and 2) whether the established program targets are achieved.

Monitoring of NFPCIP progress is a cyclical process involving planning, implementing, assessing, and making appropriate adaptations based on findings—while continuing to advocate for financial resources to address emerging issues. Data on financial expenditures and progress toward annual targets and indicators is collected from implementing partners on a quarterly basis following the government fiscal year (July–September, October–December, January–March and April–June). After collection, the data is analysed, reported, and discussed in a quarterly or semi-annual progress review meeting. Since July 2010, several stakeholder/partner meetings were convened to review and discuss progress. These include: The NFPCIP Year One Annual Appraisal held in November 2011; two Semi-Annual FP Implementers meetings convened, in June 2011 and in March 2012; and the Mid-Year Review meeting for NFPCIP YR 2 held in June 2012. There was also a post-Dakar conference country meeting that elucidated some new areas of consideration. Combined, these mechanisms generated several strategic considerations and recommendations.

The monitoring effort faced several limitations that were inherent in the original NFPCIP, such as the inability to generate accurate targets to be achieved due to lack of baseline data. For example, determining how many providers were needed to meet demand was difficult to ascertain without data on the number of currently trained providers. Furthermore, the ambitious nature of the CPR target made implementation of some of activities with high targets unfeasible given the limited timeframe. There were also challenges in data reporting, such as underreporting and “early” reporting of work completed for activities that were targeted for implementation in subsequent years.

Table 7 provides a summary of funding—original projections, actual expenses, and revised projections—in Tanzanian shillings and U.S. dollars each year through 2015, by SAA, to reach a national average CPR target of 60 percent for all methods for all women of reproductive age by 2015. In this updated NFPCIP, the financial projections were updated based on the current population structure, growth rates and the reprioritization of activities deemed necessary to achieve the objectives in each of the five SAAs.

**Table 7 Annual Funding Requirements, 2010–2015, by Strategic Action Area to Reposition Family Planning, with 60 percent CPR Target Achieved by 2015, Original Projections, Actual Spent in NFP/CIP Years One and Two, and Updated Projections (in Tshs)**

## Summary of Progress by Strategic Action Area

The progress reported below follows the original NFPCIP strategic activities—the revised targets will be reported after Year 3.

### Strategic Action Area I: Contraceptive Security

Maintaining an adequate supply of contraceptive commodities to **meet clients' needs, prevent stock-outs** and ensure **contraceptive security** is a priority for the program to achieve its goal. As such, activities for Year 1 focused on mobilizing adequate resources to fill the pipeline and conducting regular meetings and supervisory visits to assess commodity procurement and distribution status at all levels. An automated system to capture facility-level logistics the ILS Gateway, was also introduced in four regions. During this period, Jadelle was also approved for public use, and emergency contraceptives also received registration approval.

Strategic Action	Success Indicator	Progress Highlights, Year 1&2	Key Gaps and Considerations
Ensure adequate supply of contraceptive methods at all levels	Funding requests match resource needs  Increased budget allocation for contraceptives  Reduced stock-outs	Adequate funds sourced to purchase commodities needed.  All targets for procurement were exceeded due to the need to fill the pipeline.  In year one, 99% of the resources allocated for this strategic area were spent on commodities.  In year two, actual costs exceeded 187%.  The ILS Gateway system was developed and piloted in 4 regions in YR 1, and subsequently scaled up to 14 regions in YR 2.  Jadelle was approved for public use.  Tanzania Food and Drug Authority granted registration approval for emergency contraceptives.	Challenges acquiring data from service utilization continued to impede forecasting exercises.  Some facilities continued to report stock outs, signaling a need to focus interventions on the last mile.

## Strategic Action Area II: Capacity Building

This SAA supports **building the capacity** of providers to deliver FP methods and services in a safe and effective manner. The NFPCIP included activities for building capacity of in-service providers and rehiring retired health workers.

During the first two years of NFPCIP implementation, providers were trained to provide short-acting, long-acting and permanent methods. Great challenges to increasing access and uptake of LAPMs—especially the IUD—continue to exist. Considerable investments were directed toward building capacity of health providers to provide LAPMs, especially through in-service training. However, for a variety of reasons but primarily the human resource crisis, not all health centres and hospitals are equipped with skilled personnel to provide LAPMs. Efforts to address these challenges in a system-wide, cost-effective manner would reduce this problem. For example, a better mechanism for tracking trained providers would reduce duplication of investments in training.

Strategic Action	Success Indicator	Progress Highlights, Year 1&2	Key Gaps and Considerations
Increase availability and improve distribution of FP service providers	On-line facility specific staff inventory available and updated annually	Computerized inventory of FP-trained staff by facility was initiated for finalization in YR 4.	
Implement task shifting to all levels of the health system	Report on necessary changes for task shifting	Two evidence-based task shifting solutions were identified.	
Improve provider capacity to deliver FP services	Tutors and providers trained and training strategy, guidelines and curricula updated	1,349tutors trained. In-service and pre-service provider training was conducted for long-acting, short-acting and permanent methods. Guidelines, procedure manual and training curricula were updated. Decision-making Tool for client-provider interaction was printed.	National FP Training Strategy not updated. Inventory of national FP trainers not developed. Pre-service curricula not updated. Dissemination/distribution of documents was limited to a few sites.
Retain retiring and rehire retired health workers	Workers identified, needs documented, plan developed, training conducted	Three retired workers were hired.	
Include non-coercive FP indicators in pay-for-performance initiative	Survey conducted and benefits package updated		FP indicators not incorporated into in pay-for-performance initiative.
Build capacity for FP advocacy at regional and district levels	Advocacy capacity building strategy in place	Conducted one Tripartite meeting targeting district level decision makers.	Training curriculum for building FP advocacy not developed.

### Strategic Action Area III: Service Delivery

Maximizing access to quality services is a fundamental priority of the NFPCIP. During the first two years of NFPCIP implementation, activities were implemented under all eight strategic actions in this area. Outreach activities under Strategic Action 6—develop, promote, implement approaches to ensure increased access to FP for low-income and vulnerable groups—were heightened in order to reach people in remote and low CPR regions. In the first year alone, over 350,000 people accessed LAPM and short-acting method services in selected districts in 20 regions through outreach activities. YR 2 featured efforts focused on developing guidelines for integrating FP and HIV/AIDS services and revisiting the community-based approach to delivering FP services.

The TDHS 2010 confirmed that the public sector is still the major source of modern contraceptive methods with 65 percent of users obtaining methods from government-sponsored services. Meeting the unmet need for FP requires solutions that improve the public sector and creatively exploit opportunities in the private sector. Furthermore, the TDHS 2010 showed that youth—the largest proportion of the Tanzanian population—continue to face huge challenges accessing FP services. CPR for modern methods among youth 15–19 years is only 9% while 16% of women aged 15–19 years have unmet need for FP.

Strategic Action	Success Indicator	Progress Highlights, Year 1&2	Key Gaps and Considerations
Integration of FP with HIV, ANC, PNC, and PAC services for men, women, and youth implemented at scale	Operational tools developed, RHMTs and CHMTs oriented, facilities branded	Operational tools for some of the integration modalities have been developed and evaluated, including FP-CTC, FP-VCT, FP-cPAC, & FP-PNC/ANC.  Efforts are underway to develop National Operational Guidelines for Integrating MNCH/HIV/AIDS Services (NOGI) ( <i>completed, June 2013</i> ).	Tools have been used in pilot settings; however, they have not been finalized and printed to guide scale-up of services.
Integrated community-based services increased and strengthened	CBD guidelines, curriculum, and job aids updated, TOTs conducted, CBD supervisors trained, available methods expanded, CBD and youth workers trained	CHMTS were assisted to provide supportive supervision of CHWs.  CHWs/CBDs were trained in selected districts.  Efforts underway to develop a National operational plan for strengthening CBFP services to guide revisions of the CBD guidelines, curriculum, and job aids.	CBFP services continue to only be available in limited areas of the country.  CBFP program continues to face various challenges, primarily sustainability of the program. The role of CBFP delivery as a component in the currently developed CHW policy guidelines needs to be assessed.
Increase acceptability and utilization of FP services by men	Situational analysis of male involvement; print messages and radio spots developed	Limited male involvement activities were conducted, mainly focusing on increasing awareness of FP issues.  Print messages and radio spots were developed as part of the Jiamini Campaign.	Situational analysis of male involvement not conducted ( <i>Completed in YR 3</i> ).
Increase availability of FP-related, youth-friendly services	FP trainers and providers updated on key YFS strategies	106 service providers trained on YFS and peer education service in Kililimanjaro, Arusha, Iringa and Tanga regions.	FP trainers not updated on key YFS strategies.

Expand and strengthen FP provision through the private sector (includes NGO's, FBO's, social marketing, commercial health facilities)	Assessment conducted, inventory of private SDPs in place, stakeholders oriented on role of private SDPs in providing FP, feasibility of socially-marketed FP products by CBD explored	MoHSW approved social marketing of injectable contraceptives(DMPA), implants (Jadelle) and IUDs in private health facilities.  FP services were expanded to 236 private facilities which also received capacity building and other support.	
Approaches to ensure increased access to FP services in remote sites/low CPR regions for low-income and vulnerable groups developed, promoted, and implemented	Analysis conducted, recommendations to overcome access barriers documented	An assessment of health seeking attitudes, behaviours, access to FP was initiated in YR 2.  Efforts underway to develop guidelines for outreach services.	
FP Provision Policy Guidelines and Standards updated and disseminated	Updated policy, guidelines, standards, and supervisory checklist produced and distributed; stakeholders oriented	Efforts underway to revise the Guidelines and Standards document( <i>completion anticipated, September 2013</i> ),	Revisions to FP provision policy guidelines & standards, supervisory checklist not completed.
Availability and accessibility of socially-marketed contraceptives products expanded	CBD feasibility study conducted and way-forward documented; capacity assessment and inventory of private facilities conducted; stakeholders oriented to roles.	The study was conducted and results are pending for dissemination.	

## Strategic Action Area IV: Advocacy and Strategic Communication

The first two years of NFPCIP implementation featured enhanced advocacy efforts that resulted in several key policy and advocacy gains at the highest levels of the national development agendas. These include the integration of total fertility and population growth rate reduction targets in the National Development Plan (MKUKUTAI) and the establishment of a separate FP target (budget line item) in the current MoHSW MTEF. At the district level, the inclusion of FP in council health planning guidelines, resulted in increases in FP resource allocations in several districts.

Furthermore, in year two, the national campaign for behaviour change communication was launched and disseminated FP information through various types of media.

Strategic Action	Success Indicator	Progress Highlights, Year 1&2	Key Gaps and Considerations
Organize advocacy to prioritize FP with separate budget line for FP	Budget line established at national, regional, and district levels	<p>MoHSW included a specific FP target, measured by CPR growth in the 2011/12–2013/14 Medium Term Expenditure Framework (MTEF).</p> <p>GoT's "own" funding increased from 0.5bn TZ shillings (2010/2011) to 1.2bn TZ shillings (2011/12).</p>	Continued advocacy is needed to ensure adequate funding is allocated to meet needs of the FP program.
Ensure inclusion of FP in major national policy documents, implementation plans that determine budget allocations, stressing significance of FP to national development	FP included in major GoT national policy documents	<p>Targets for total fertility and population growth rate reduction in the National Strategy for Growth and Reduction of Poverty II (MKUKUTA II).</p> <p>GoT revised the FY 2010/11 Comprehensive Council Health Plan to include financing guidelines for family planning resulting in an increase in FP resource allocations at the district level.</p> <p>In 2011, 49 districts budgeted for FP in their plans. "Health basket funds" (central-level funding to the districts for specific health work) were the main sources of funds for financing FP services.</p>	
Conduct and sustain advocacy targeting development partners and donors to raise level of FP support	Development partners' funding criteria and priorities documented, strategy for targeting development partners in place, development partners oriented to facilitate FP re-positioning	<p>A request for FP commodities was approved for inclusion in Global Fund Round 10 proposal; however, it was not funded.</p> <p>Traditional "Basket" funders (including DFID, CIDA and AusAID) deployed supplementary resources (off-basket) to fund FP commodities.</p>	Mapping of development partners interested in supporting FP not completed.

Reposition, reinstate Green Star logo as a National FP program	Respondents recognize logo		National re-launch of Green Star was postponed until the contraceptive security situation was stable; efforts underway to launch the Green Star in October 2013.
Conduct sustained national FP advocacy campaign to provide accurate information, address rumours/misconceptions, promote male involvement, influence social values, and reach vulnerable groups	Radio and TV spots produced and aired, materials printed and distributed, health campaigns adapted to include FP messages, articles published	<p>National mass media family planning campaign "Jiamini" was launched.</p> <p>Under the Jiamini campaign, the following was achieved: radio spots (16,604), TV spots campaign (2,744), M4RH text messages (242,634), Mini-Buzz TV programs (6 episodes). Other efforts: distributed 50,000 leaflets, 5,900 T-shirts, 835 posters and 2,500 Green Star logos, 923 Tiahrt posters, 260 FP posters, 42,500 IEC materials to the community; produced IEC and BCC materials in 9 regions.</p> <p>FP media group to support multimedia dissemination campaigns was oriented to the Jiamini campaign.</p> <p>FP campaigns were conducted at Women's Day, White Ribbon Day, World AIDS Day.</p>	
Establish a network of community-level champions (community leaders, religious leaders, politicians) to reassure the population of the acceptability and benefits of FP	Champions oriented to initiative, trainers prepared to support champions, champions recruited and trained	Tanzanian Association of Parliamentarians for Population and Development formed a parliamentarian family planning club (PFPC) comprised of 15 members of parliament (MPs) from both the ruling and opposition parties of mainland Tanzania and Zanzibar.	
Establish a network of national-level champions to reassure the population of the acceptability and benefits of FP	Champions in place and active	A total of 75 district and national level champions were recruited 60 at district level; 15 at national level.	Many champions were oriented, but were not consistently supported; as a result, some attrition has occurred.

## Strategic Action Area V: Health Systems Management, Monitoring, and Evaluation

During the first two years, progress was made to strengthen the health management systems at all levels; however, activities under this SAA were limited. Funding support was provided to the FP unit/RCHS to cover administrative and operational costs. Zonal and district level health teams were supported to conduct supervision visits in various regions countrywide.

Despite this progress, the monitoring and evaluation system for family planning faces major challenges. Service utilization data is not regularly available for compilation at the national level. Data from outside health facilities or from private facilities is not always entered in to the HMIS. There is a lack of personnel with skills to manage SRCH data. Data is not being utilized appropriately during CCHP planning, progress monitoring, when providing feedback, or advocating for change.

Strategic Actions	Success Indicator	Progress Highlights, Year 1&2	Key Gaps and Considerations
Strengthen leadership and management capacity at RCHS at all levels	Support for Leadership Development Plan generated, LDP action plans developed and implemented, best practices incorporated into guidelines, staff supported to attend meetings and conferences, vehicles procured	Funding support was provided to the FP unit/RCHS to cover administrative and operational costs.	Efforts to strengthen leadership and management capacity at all levels of RCHS not fully implemented as planned.
Develop, maintain, co-ordinate, implement an M&E system aligning inputs to outputs at all levels, national through district	Reporting gaps and data collection obstacles identified, data collection and reporting framework developed, staff trained and action plans developed, staff using NFPCIP dashboard	Support was offered to select districts to facilitate data transmission from health facilities to district level, and the capacity of the district/CHMTs to use FP/RH data for planning purposes was enhanced.  Data quality improvement exercises were conducted, particularly for MTUHA data quality.	A lack of HMIS data on service utilization, nationwide continues..
Strengthen forums on FP to facilitate exchange of information, leverage resources, synchronize activities, and share lessons	National FP working group meetings conducted, web site up-to-date, RCHS present at coordination meetings	Initiated revision/update of RCHS website.	Annual coordination meetings with zonal level not conducted.
Establish existing funding levels and applications (public and private sectors) as a basis for resource mobilization	Current structure of FP services and funding sources documented, report disseminated, cross-sector forum hosted by RCHS	In YR 2, a rapid assessment was conducted with select private sector companies and advocacy activities were conducted for fund solicitation.  25 CSOs were trained on fund-raising and resource mobilisation.	

## Implementation Framework—A summary of results, activities, annual targets, indicators and costs

The NFPCIP has five SAAs and each, is comprised of a number of strategic results that are broken down into the various activities to be implemented to meet set targets. Cost estimates are exclusively for additional development activities that need to be implemented to either support or strengthen family planning services to meet the One Plan target of 60% CPR. Government support for family planning, included under its operating budget, has been excluded. This support includes salaries for human resources and infrastructure (equipment, furniture, supplies, electricity, and water supplies) which can range from 40 to 60 percent of the total budgetary estimates.

The following tables describe the activities for each SAA, annual targets, indicators, the timeframe and process for implementation are indicated for the remaining four fiscal years, 2012 to 2015. Cost estimates for the past two fiscal years, 2010 to 2012 are included as Appendix B.

### SAA I: Contraceptive Security

This SAA refers to expanded availability and choices of safe, effective, acceptable and affordable **contraceptive methods**. It addresses contraceptive logistics and security, ensuring that supplies of all contraceptive commodities are adequate to meet the needs and preferences of family planning clients.

Estimates for the amount of contraceptive commodities to be procured have been revised based on TDHS 2010, and show financial resource requirements ranging from Tshs 29.3 billion in FY 2012–2013 to 58.6 billion in FY 2015–2016.

In this updated NFPCIP, an additional strategic result (SR#3) has been added to this SAA to focus on broadening the method mix, by introducing new methods, in particular the Standard Days Method.

Due to the positive results from the development and testing of the ILS Gateway(an automated system which captures facility-level logistics data and make sit available to district, regional, and central decision makers), the updated NFPCIP includes activities to scale-up this system to all service delivery points in the country.

Contraceptive Security Strategic Activities	Sub-activity	Annual Targets (Years 3 - 6)			Indicator	Total Cost Tshs (FY 2013-2016)
		Year 3	Year 4	Year 5		
<b>Strategic Results 1: Adequate contraceptive commodities and supplies procured to meet country needs</b>						
1a) Procure adequate contraceptive commodities and supplies to cover all country needs in accordance with the method -mix projections to meet the One Plan target by 2015 target. <i>NOTE: these projections are based on the 'number of women of reproductive age' and hence inclusive of private sector/social marketing.</i>	Contraceptive commodities procured: Reality check projections based on TDHS 2010; method mix by 2015 based on current trends, injectables-53%, male condoms-10%, implants-13%, IUD-5%.	Male condoms	11,843,259	14,007,687	16,206,492	18,717,747
	Injectables	6,812,321	8,617,359	10,527,557	12,549,804	
	Pill cycles	11,843,259	14,007,687	16,206,492	18,717,747	
	IUD	69,640	85,192	101,673	119,144	
	Implants	184,398	219,833	257,373	297,152	
	Female condoms	351,000	386,100	424,710	467,181	
	EC	350,000	385,000	423,500	465,850	
<b>Strategic Results 2: Adequate and consistent supply of contraceptive commodities at all levels achieved</b>						
2a) Convene quarterly meetings with team of logistic and supply chain focal persons from MSD, RCHS, PSS, World Bank, JSI Deliver and the MoHSW Procurement Unit to discuss technical issues pertaining to forecasting, procurement, storage, distribution and reporting on family planning commodities.	Conduct meetings with relevant members	4 meetings	4 meetings	4 meetings	4 meetings	Number of quarterly meetings held in a year
2b) Convene quarterly national-level Contraceptive Security (CS) Committee meetings.	Conduct meetings with CS members	4 meetings	4 meetings	4 meetings	4 meetings	Number of meetings held per year
2c) Build capacity of public and private sector officials at national level to effectively quantify and forecast contraceptive commodities.	Conduct one training/year for officials from RCHS, PSS, MSD, TMARCPSI, MSTVSI & UMAII	30 officials trained	30 officials trained	30 officials trained	30 officials trained	Number of people trained by district
2d) Conduct training on ILS and ILS Gateway for all health care workers (HCWs) nationwide.	Train two people from each health facility and one person from each district in Tanzania mainland: 12,136 total HCWs	4045 HCWs trained; 145 training sessions	Number of people trained by district			

## SAA II: Capacity Building

This SAA refers to **building the capacity** of providers to deliver and support safe, effective use of FP methods and services. Capacity-building considerations include the numbers, categories, attitudes, skills, supervision, and remuneration of service personnel at all levels and in all sectors.

In this updated NFPCIP, three strategic results that appeared in the original NFPCIP (see bulleted list below) have been dropped. These three strategic results had no cost estimate allocations and are being addressed in other strategic plans, including the HRHSP 2008–2013 and PHSDP 2007–2017.

- ◆ Strategic Action 1. Increase availability and improve distribution of FP service providers
- ◆ Strategic Action 4. Retain retiring and rehire retired health workers
- ◆ Strategic Action 5. Include non-coercive FP indicators in pay-for-performance initiative

Another item from the NFPCIP, Strategic Action 6. *Build capacity for FP advocacy at regional and district levels*, has been shifted to *SAA IV: Advocacy and Strategic Communication*.

Capacity Building Strategic Activities	Sub-activity	Annual Targets (Years 3 – 6)			Indicator	Total Cost Tshs (FY 2013–2016)
		Year 3	Year 4	Year 5		
<b>Strategic Result 1. Task shifting implemented at all levels of the health system</b>						
1a) Conduct research or implement programmatic interventions on task shifting and/or sharing by cadre of health services provider (at facility and community levels) for expanded and integrated FP service delivery.	Conduct literature review to understand evidence base for task shifting opportunities, and generate recommendations for adoption at country level	1 consultancy			Report on recommendations for task shifting generated and disseminated	1,762,400,775
	Conduct research on new task shifting models/opportunities to generate local evidence and inform implementation	1 study	2 study	2 study	Number of research studies conducted to inform task shifting	
1b) Engage professional associations and registrars (MAT, TAMA, AGOTA, PAT, MEWATA, PRINMAT, pharmacists, lab associates, academicians) as well as other relevant stakeholders to review evidence, generate recommendations and seek approvals from relevant authorities for task shifting/sharing approaches to FP service delivery.	Conduct stakeholders technical consultations meetings			2 meetings	Decisions made on possible task shifting/sharing approaches to be introduced	12,250,288

Capacity Building Strategic Activities	Sub-activity	Annual Targets (Years 3 – 6)				Indicator	Total Cost Tshs (FY 2013-2016)
		Year 3	Year 4	Year 5	Year 6 (½ yr)		
1c) Develop and disseminate operational guidelines, training curriculum, and job aids for implementing endorsed evidence-based task shifting/sharing approaches for FP service delivery.	Conduct workshops to develop operational guidelines, training curriculum and job aids	2 workshops	2 workshops	2 workshops		Guidelines, training curriculum and job aids developed	914,009,033
	Produce and disseminate approved operational guidelines for task shifting/sharing nationwide				Print documents: 6,000 guidelines; 6,000 job aids; 1,500 training curricula	Dissemination coverage: numbers/ types of institutions represented at central and zonal dissemination meetings	
	Disseminate approved operational guidelines for task shifting/sharing at central and zonal levels			1 central meeting; 2 meetings/ zone (12 meetings)	2 meetings/ zone (4 meetings)		
1d) Conduct TOT on guideline, training curriculum and job aids for task shifting/sharing.	Conduct TOT on guideline, training curriculum and job aids for task shifting/sharing		20 trainers; 1 training session			Number of trainers trained	60,516,111
1e) Train identified task-shifting cadres on FP services using revised FP materials at the zonal level.	Conduct 12-day skills training at the zonal level			450 providers: 15 training sessions	150 providers: 5 training sessions	Number of providers trained by zone	1,918,092,623
<b><i>Strategic Result 2. Provider capacity to deliver quality FP services improved</i></b>							
2a) Update/develop national FP training strategy for in-service staff.	Engage consultant to develop/update training strategy for in-service staff	1 consultancy				National FP training strategy in place	158,314,030
	Conduct three 3-day review meetings	3 meetings				Number of copies of the training strategy documents printed	
	Print	1,000 copies				Dissemination coverage: number/types of central- / zonal-level institutions represented at dissemination meeting	
	Conduct 2-day central level dissemination meeting (60 people)	1 meeting					

Capacity Building Strategic Activities	Sub-activity	Annual Targets (Years 3 - 6)				Indicator	Total Cost Tshs (FY 2013-2016)
		Year 3	Year 4	Year 5	Year 6 (½ yr)		
2d) Conduct comprehensive FP training for tutors in pre-service health training institutions.	Conduct ten 9-day training sessions on short-acting FP methods for 250 tutors in pre-service health training institutions	50 tutors trained on short-acting methods; 2 training sessions	75 tutors trained on short-acting methods; 3 training sessions	75 tutors trained on short-acting methods; 3 training sessions	50 tutors trained on short-acting methods; 2 training sessions	Number of tutors trained on short-acting FP methods	1,334,415,852
	Conduct ten 9-day training sessions on long-acting FP methods for 250 tutors in pre-service health training institutions	50 tutors trained on long-acting methods; 2 training sessions	75 tutors trained on long-acting methods; 3 training sessions	75 tutors trained on long-acting methods; 3 training sessions	50 tutors trained on long-acting methods; 2 training sessions	Number of tutors trained on long-acting FP methods	
	Conduct two 14-day training sessions on permanent FP methods for 50 tutors in pre-service health training institutions	25 tutors trained on permanent methods; 1 training session	25 Tutors trained on permanent methods; 1 training session			Number of tutors trained on permanent FP methods	
2e) Increase the pool of zonal level FP trainers.	Conduct 14-day TOT training for 120 trainers (5 sessions)	25 zonal level trainers trained; 1 training session	50 zonal level trainers trained; 2 training sessions			Number of zonal level FP trainers trained by zone	406,925,602
2f) Conduct CTU for in-service providers and pre-service tutors using updated curricula and job aids.	Conduct 5-day in-service for providers and pre-service tutors training (48 sessions)	300 pre-service and in-service tutors trained in CTU; 12 sessions	450 pre-service and in-service tutors trained in CTU; 18 sessions			Number of pre-service and in-service tutors trained in CTU by district	1,505,032,647

Capacity Building Strategic Activities	Sub-activity	Annual Targets (Years 3 – 6)				Indicator	Total Cost Tshs (FY 2013–2016)
		Year 3	Year 4	Year 5	Year 6 (½ yr)		
2g) Conduct in-service training on short-, long-acting comprehensive postabortion care (cPAC), PP IUCD, and permanent methods.	Conduct 9-day, short-term FP methods training for in-service providers (3,600 providers)	1,200 in-service providers trained on short term FP methods; 16 training sessions	1,200 in-service providers trained on short term FP methods; 16 training sessions	1,200 in-service providers trained on short term FP methods; 16 training sessions	1,200 in-service providers trained on short term FP methods; 16 training sessions	Number of in-service providers trained on short-term FP methods by district	7,625,142,351
	Conduct 9-day, long-term FP methods training for in-service providers (5% of providers)	600 in-service providers trained on long term FP methods; 8 training sessions	600 in-service providers trained on long term FP methods; 8 training sessions	600 in-service providers trained on long term FP methods; 8 training sessions	600 in-service providers trained on long term FP methods; 8 training sessions	Number of in-service providers trained on long-term FP methods by district	
	Conduct 14-day, permanent FP methods training for in-service providers (0.5% of providers)	60 in-service providers trained on permanent FP methods; 4 training sessions	60 in-service providers trained on permanent FP methods; 4 training sessions	60 in-service providers trained on permanent FP methods; 4 training sessions	60 in-service providers trained on permanent FP methods; 4 training sessions	Number of in-service providers trained on permanent FP methods by district	
	Conduct 14-day, cPAC training for in-service providers (1.7% of providers = 600 providers)	200 in-service providers trained on cPAC; 10 training sessions	200 in-service providers trained on cPAC; 10 training sessions	200 in-service providers trained on cPAC; 10 training sessions	200 in-service providers trained on cPAC; 10 training sessions	Number of in-service providers trained on cPAC by district	
	Conduct 14-day, PP IUCD training for in-service providers (1.7% of providers = 600 providers)	200 in-service providers trained on PP IUCD; 10 training sessions	200 in-service providers trained on PP IUCD; 10 training sessions	200 in-service providers trained on PP IUCD; 10 training sessions	200 in-service providers trained on PP IUCD; 5 training sessions	Number of in-service providers trained on PP IUCD by district	

Capacity Building Strategic Activities	Sub-activity	Annual Targets (Years 3 – 6)			Indicator	Total Cost Tshs (FY 2013–2016)
		Year 3	Year 4	Year 5		
2h) Train health providers (facility level) on how to provide integrated family planning services by using developed integrated curriculum (FP/HIV/CTC/ PMTCT/VCT/HBC/PAC/RH Cancer Screening integration).	Conduct 9-day training on FP/CTC integration; priority for districts w/ high HIV prevalence rates (minimum of two providers per facility: 1,200 providers)	300 facility-based providers trained on FP/CTC integration; 10 training sessions	600 facility-based providers trained on FP/CTC integration; 20 training sessions	300 facility-based providers trained on FP/CTC integration; 10 training sessions	Number of facility-based providers trained on FP/CTC integration by district	18,348,555,070
	Conduct 6-day training on FP/PMTCT integration; priority for districts w/ high HIV prevalence rates (minimum of two providers per facility: 1,200 providers)	300 facility-based providers trained on FP/PMTCT integration; 10 training sessions	600 facility-based providers trained on FP/PMTCT integration; 20 training sessions	300 facility-based providers trained on FP/PMTCT integration; 10 training sessions	Number of facility-based providers trained on FP/PMTCT integration by district	
	Conduct 6-day training on FP/VCT integration; priority for districts w/ high HIV prevalence rates (480 VCT providers)	160 facility-based providers trained on FP/VCT integration; 10 training sessions	160 facility-based providers trained on FP/VCT integration; 10 training sessions	160 facility-based providers trained on FP/VCT integration; 10 training sessions	Number of facility-based providers trained on FP/VCT integration by district	
	Conduct 14-day training on FP/HBC integration; priority for districts w/ high HIV prevalence rates (4200 HBC)	1,400 HBC providers trained on FP/HBC integration by district; 56 training sessions	1,400 HBC providers trained on FP/HBC integration by district; 56 training sessions	1,400 HBC providers trained on FP/HBC integration by district; 56 training sessions	Number of HBC providers trained on FP/HBC integration by district	

Capacity Building Strategic Activities	Sub-activity	Annual Targets (Years 3 - 6)			Indicator	Total Cost Tshs (FY 2013-2016)
		Year 3	Year 4	Year 5		
2i) Conduct training on preceptorship.	Conduct 14-day training on preceptorship (240 preceptors)	80 preceptors trained by district; 4 training sessions	80 preceptors trained by district; 4 training sessions	80 preceptors trained by district; 4 training sessions	Number of preceptors trained by district	778,046,900
2j) Conduct on-the-job training, mentoring and coaching.	Carryout follow-up visits to 25% of health facilities; (34 districts out of 136; each district train 4 facility-based health providers)	10 of sessions of on-the-job training conducted	17 of sessions of on-the-job training conducted	7 of sessions of on-the-job training conducted	Number of sessions of on-the-job training conducted	120,902,468
2k) Conduct trainee follow up.	Conduct 14-day trainee follow up (10% of districts = 14 districts)	4 trainee follow up sessions conducted	4 trainee follow up sessions conducted	4 trainee follow up sessions conducted	2 of trainee follow up sessions conducted	Number of trainee follow-up sessions conducted
2l) Conduct training of service providers on use and maintenance of equipment and physical structure and systems.	Conduct 5-day training workshop for service providers and supervisors per region (600 providers)	200 service providers trained to use and maintain equipment & physical infrastructure; 8 training sessions	200 service providers trained to use and maintain equipment & physical infrastructure; 8 training sessions	200 service providers trained to use and maintain equipment & physical infrastructure; 8 training sessions	Number of service providers trained to use and maintain equipment & physical infrastructure	796,926,562
<b>Capacity Building Total (in Tshs):</b>		<b>36,928,925,758</b>				

### SAA III: Service Delivery

This SAA refers to the strengthened **service delivery systems** and increased options for delivery of quality, affordable, and sustainable FP services. These include facility- and community-based services and other modalities and channels within and outside of the health sector, including outreach services, and pharmacies and drug shops. Service delivery systems include physical infrastructure, equipment, and supplies, as well as special considerations and opportunities, such as integration of FP services into other services, including PNC, cPAC, HIV/AIDS, cervical and breast cancer screening, and GBV. It also includes meeting the needs of clients considered to have special needs for family planning because they are at high risk of an unintended pregnancy due to biological, social-cultural, and physical conditions that may hinder their access to FP services. These include adolescents, males, people with disabilities, postpartum clients, post-abortion clients, people living with HIV/AIDS and peri-menopausal women.

For the remainder of the fiscal years to 2015, resource estimates for service delivery rank second highest in cost and importance after contraceptive security because of the need to amplify access to services. Following the finalization of the *National Operational Guidelines for Integration of Maternal, Newborn, Child Health, and HIV/AIDS services (NOGI)*, SAA III now features a considerable increase in cost estimates for efforts to integrate FP into other health services, in particular scaling up in health facilities.

Similarly, cost estimates for outreach services have significantly increased because this outreach services have been identified as an important strategy to increase the use of FP, especially LAPMs and to reach clients in remote areas.

Costs for community-based family planning services have been included here as proxy estimates while the Ministry develops a separate costed operational plan for strengthening community based family planning services. Once finalized, the costed operational plan will provide a more comprehensive description of the cost requirements for outreach services.

Service Delivery Strategic Activities	Sub-activity	Annual Targets (Years 3 - 6)			Indicator	Total Cost Tshs (FY 2013-2016)
		Year 3	Year 4	Year 5		
<b>Strategic Result 1: Integration of FP with HIV and MNCH (PAC, PNC, ANC, PITC) services for men, women, and youth implemented at scale</b>						
1a) Develop and implement operational guidelines for integration and referral of FP with cPAC	Consultancy fee		1 consultancy		National operational guideline for the integration of FP into cPAC developed and ready for use	377,746,060
	Task force review meetings each 15 participants		4 meetings			
	Stakeholders meeting to review		2 meetings

		Year 3	Year 4	Year 5		
3f) Prepare, produce and broadcast print messages and radio spots targeting males in all regions.	Two-day meeting in Bagamoyo to review drafts of radio and Print messages		1 meeting		Number of radio spots developed	601,267,823
	Pre testing of message (four days)					
	Broadcast radio spots		28 high-intensity episodes/ spots;	28 high-intensity episodes/ spots;	Number of radio spots aired	
			16 medium-intensity episodes/ spots;	14 high-intensity episodes/ spots;		
			8 low-intensity episodes/ spots;	8 medium-intensity episodes/ spots;		
				4 low-intensity episodes/ spots		
	Produce print messages		100,000 leaflets, 34 billboards, 100,000 posters		Number of print messages produced and distributed	
<b>Strategic Result 4: Access and use of FP services by young people, 10-24 years old, increased</b>						
4a) Update FP trainers on the key strategies for adolescent YFS and peer education.	Train 28 FP trainers for 12 days	28 trainers; 2 training sessions		Number of FP trainers trained per zone	86,769,974	
4b) Train facility-based providers in the provision of YFS, including addressing barriers to provision of services to youth.	Conduct 75, ten-day training sessions for 1,500 service providers	800 service providers trained on provision of youth friendly services; 40 training sessions; 35 training sessions	700 service providers trained on provision of youth friendly services; 40 training sessions; 35 training sessions	Number of service providers trained on provision of youth friendly services	4,111,832,113	

Service Delivery Strategic Activities	Sub-activity	Annual Targets (Years 3 – 6)			Indicator	Total Cost Tshs (FY 2013-2016)
		Year 3	Year 4	Year 5		
4c) Recruit and orient peer educators in promoting use of FP by youths.	Orient peer educators to carry out community events	52 sessions; 1,040 peer educators oriented	50 sessions; 1,000 peer educators oriented	50 sessions; 1,000 peer educators oriented	Number of peer educators oriented on increasing youth uptake of FP services	2,749,603,144
	Support peer educators to conduct community events		1,040 peer educators supported	1000 peer educators supported	Number of peer educators supported	
4d) Establish infrastructure for youth friendly services at dispensary, health centres and district hospitals levels, including facilities in higher learning institutions.	Renovate and equip 4,500 health facilities (75%) to deliver youth friendly services	1,875 facilities	1,875 facilities	1,875 facilities	Number of health facilities equipped and delivering YFS	6,617,517,355
4e) Expand and adapt mobile technology service (m4RH) to include information for young people	Conduct workshop to review new content for Youth (4 days, 15 people)		2 meetings	2 meetings		75,064,696
	Translate messages into Kiswahili		1 copy	1 copy		
	Test initial messages via 10 Focus Group Discussions (FGDs) with youth		1 meeting	1 meeting		
	Program Messages into mobile platform (~ 2500USD)		once	once		
	Test the system via In-Depth Interviews (IDIs) with 10 youth		1 meeting	1 meeting		

Service Delivery Strategic Activities	Sub-activity	Annual Targets (Years 3 – 6)			Indicator	Total Cost Tshs (FY 2013-2016)
		Year 3	Year 4	Year 5		
<b>Strategic Result 5: FP provision through the private sector (includes NGOs's, FBO's, social marketing, commercial health facilities, etc.) expanded and strengthened</b>						
5a) Conduct needs assessment on the capacity of a sample of private-sector facilities (FBO, NGO, commercial) to provide FP services according to national standards and guidelines.	Conduct a study; disseminate results				Assessment conducted and report developed and disseminated	106,610,508
5b) Orient CHMTs, zonal training institutions and APHFTA on the plan and their expected roles to support its implementation.	Two-week training per zones on the plan and their expected roles to support its implementation	300 CHWs oriented; 10 orientation sessions	300 CHWs oriented; 10 orientation sessions	300 CHWs oriented; 10 orientation sessions	Number of representatives from CHMTs, zonal training institutions, and APHFTA oriented	2,066,488,633
5c) Train private service providers in the provision of FP services.	Two-week training of health care providers	100 private service providers trained; 4 sessions	100 private service providers trained; 4 sessions	100 private service providers trained; 4 sessions	Number of private health providers trained	930,644,397
<b>Strategic Result 6: Access to FP services in remote sites/low CPR regions through implementation of outreach services increased</b>						
6a) Organize a forum of outreach implementing partners to share and discuss field data on knowledge, attitudes and behavior practices for accessing FP for low-income and vulnerable groups to inform tailored implementation of outreach events.	Two-day meeting in Dar for 20 people			1 meeting	Recommendations generated to improve outreach events	5,024,000

Service Delivery Strategic Activities	Sub-activity	Annual Targets (Years 3 – 6)			Indicator	Total Cost Tshs (FY 2013-2016)
		Year 3	Year 4	Year 5		
6b) Develop guidelines for FP outreach provision.	Engage consultant (60-day contract)	1 consultancy			Outreach guideline developed and ready to use	38,400,000
6c) Orient trainers, supervisors and service providers on outreach guidelines.	Two-week training on outreach guidelines per zone		300 trainers, supervisors and service providers; 10 training sessions	300 trainers, supervisors and service providers; 10 training sessions	Number of trainers, supervisors and service providers oriented on outreach guidelines	2,261,217,431
6d) Implement outreach efforts to low-CPR districts and hard to reach areas, according to national guidelines for outreach services. (These include partner's week-long events, and district level health facility-based outreach.)	Carry out outreach activities. Priority hard-to-reach areas. (2040 outreach events)	1020 outreach events; (50% of wards=510; two outreach efforts per ward)	510 outreach events (25% of wards=255; two outreach efforts per ward)	510 outreach events (25% of wards=255; two outreach efforts per ward)	Number of outreach activities carried out in hard to reach areas Number of clients provided with FP services by method	5,524,427,098

Service Delivery Strategic Activities	Sub-activity	Annual Targets (Years 3 – 6)			Indicator	Total Cost Tshs (FY 2013-2016)
		Year 3	Year 4	Year 5		
<b>Strategic Result 7: The FP Provision Policy Guidelines and Standards updated and disseminated</b>						
7a) Revise FP Provision Policy Guidelines and Standards.	Engage consultants	2 consultancies			FP national guidelines, standards and revised and ready for use	431,584,303
	Task force review meetings: 15 participants each	2 meetings				
	Technical meetings: 30 participants each	1 meeting	1 meeting			
	Technical meetings with MoSHW SMT: 15 participants		1 meeting			
	Translate document into Kiswahili		100 pages			
	Print the guidelines	1,000 copies Kiswahili version; 6,000 copies English version			Number of Kiswahili and English copies of the guidelines & standards printed	
	Dissemination meeting (central)		1 meeting		Dissemination coverage; number and types of institutions represented at dissemination meeting	
	Dissemination meeting (Zonal )		4 meetings		Dissemination coverage; number of zones/ names documents disseminated	
7b) Revise supervisory checklist against updated FP standards.	Conduct two 4-day workshops to review and finalize supervisory checklist		2 workshops		Supervisory checklist revised and ready for use	536,361,283
	Print supervisory checklists: 12,000 checklists (2 per facility)		12,000 checklists		Number of copies printed	

Service Delivery Strategic Activities	Sub-activity	Annual Targets (Years 3 – 6)			Indicator	Total Cost Tshs (FY 2013-2016)
		Year 3	Year 4	Year 5		
7c) Orient DRCHCo, RCHHCo, other stakeholders on the updated FP Policy Guidelines and supervisory checklists.	Two-day orientation session: 200 stakeholders	120 stakeholders oriented by district; 4 sessions	80 stakeholders oriented by district; 3 sessions	80 stakeholders oriented by district; 3 sessions	Number of stakeholders oriented by district	239,507,385
<b>Strategic Result 8: Expand and strengthen availability, accessibility, and quality of socially marketed contraceptive products</b>						
8a) Guidelines and standards together with training curriculum for FP provision from ADDOs revised and updated ( include strengthening referral mechanism and data reporting forms at all levels)	Conduct technical workshops to revise the FP component of the ADDO guidelines and training curriculum (3 workshops, each 12 people, 5 days)		3 meetings		Guidelines and standards, and training curriculum for ADDOs revised.	417,376,203
	Print the revised guidelines (6,000); training curriculum (200)			6000 copies of guidelines 200 copies of training curriculum		
	Orient ADDO TOTs to the training curriculum				4 meetings	
	Dissemination meeting on the revised guidelines and curriculum (Zonal level)				2 meetings	
8b) Knowledge & skills of ADDO trainers on family planning enhanced	Conduct training workshops for ADDO dispensers ( assume 25% of ADDOs, 1 dispenser per ADDO)				Number of ADDO dispensers trained per district/region	122,629,961
				3 meetings		

Service Delivery Strategic Activities	Sub-activity	Annual Targets (Years 3 – 6)			Indicator	Total Cost Tshs (FY 2013-2016)
		Year 3	Year 4	Year 5		
8c) Identify and establish retail outlets for distribution of social marketed contraceptive products	Conduct ADDO detailing campaign to identify and reach ADDO outlets and pharmacies in new ADDO implementing regions	100 ADDOs reached	100 ADDOs reached	100 ADDOs reached	Number of retail outlets identified for distribution of socially-marketed contraceptive products	7,374,916,997
8d) Expand methods available through pharmacies and ADDOs through social marketing.	Increase availability of all FP methods in pharmacies: IUCDs, implants, OCs, injectables, EC and condoms; in ADDOs: OCs condoms, & ECs	30 ADDOs/ pharmacies reached	30 ADDOs/ pharmacies reached	30 ADDOs/ pharmacies reached	Number of ADDOs selling OCs and condoms by district	960,191,408
8e) Conduct training on family planning for dispensers at ADDOs and pharmacies.	Training of 350 drug shop dispensers/ pharmacies on family planning.	100 ADDOs/ pharmacies trained; 4 meetings	100 ADDOs/ pharmacies trained; 4 meetings	100 ADDOs/ pharmacies trained; 4 meetings	Number of pharmacies selling IUCDs, implants, OCs, injectables, and EC	465,554,356
8f) Conduct post-training follow ups for ADDOs/pharmacies to assess quality of services and commodity availability against standards	Follow-up to assess quality of services and commodity availability against standards; 30% of 350 pharmacies	35 ADDOs/ pharmacies supervised	35 ADDOs/ pharmacies supervised	35 ADDOs/ pharmacies supervised	Number of ADDOs/ pharmacies supervised.	335,649,021

#### **Strategic Action Area IV: Advocacy and Strategic Communication**

Reinvigorated advocacy increases visibility and support for FP as a key investment for improving the lives, health, and well-being of Tanzanians. Amplified efforts to change behaviours and social norms are key to addressing the knowledge-use gap experienced in the country. This updated NFPCIP emphasizes the need for communication efforts that address the key barriers to FP use including fear of side effects, low understanding of return to fertility, high fertility preferences, and myths and misconceptions. The Ministry has been and will continue to develop comprehensive social and behaviour change communication campaigns, focusing on strengthening knowledge, acceptance and contraceptive use among an increasing proportion of Tanzanians with unmet need.

Advocacy and Communication Strategic Activities	Sub-activity	Annual Targets (Years 3 – 6)			Indicator	Total Cost Tshs (FY 2013–2016)
		Year 3	Year 4	Year 5		
<b>Strategic Result 1: Advocacy efforts to mobilize adequate resources for FP enhanced and sustained</b>						
1a) Appraise the financial situation of FP	Engage consultants to review FP budget documents	2 consultancies			Report on financial situation of FP produced	43,135,000
	Dissemination meeting	1 meeting			Number of meetings held	170,658,383
1b) Advocate for a comprehensive government FP line item at national, regional and district levels.	Ten advocacy meetings targeting MoHSSW, MoFEA, PMO-RALG, MPs, PMO (2 meetings/ each)			150 decision-/ policy-makers engaged; 6 meetings	Number of decision-/policy-makers engaged Line item for comprehensive government-sponsored FP services at national level	
	100 decision-/ policy-makers engaged; 4 meetings					
1c) Include FP costing in Comprehensive Council Health Plans (CCHP).	Conduct zonal workshops to build capacity of CHMVT's members to apply available guidelines for costing district FP needs.	180 districts; 6 meetings	180 districts; 6 meetings	# of districts with line items for FP	Number of district CCHPs with costed FP activities	460,691,318
				# of districts with line items for FP		
1d) Advocate for increased FP resource allocation from government's own sources.	Conduct advocacy meetings targeting key MPs, MoHSSW, Budget Commissioner (MoFEA), PMO-RALG (2 meetings/each)	8 meetings	8 meetings	8 meetings	Number of meetings conducted and commitments made	603,968,062

Advocacy and Communication Strategic Activities	Sub-activity	Annual Targets (Years 3 – 6)				Indicator	Total Cost Tshs (FY 2013-2016)
		Year 3	Year 4	Year 5	Year 6 ( $\frac{1}{2}$ yr)		
1e) Review national public-private partnership (PPP) policy and guidelines and CSR policies of private corporations to identify opportunities for FP resource mobilization.	Engage a consultant to review documents; conduct three consultative meetings with FP stakeholders	1 consultancy; 3 meetings				PPP policy and guidelines reviewed	99,420,000
1f) Advocate for increased FP resources from PPP.	Conduct 20 one-on-one meetings targeting potential companies; hold 1 stakeholder meeting	6 meetings	6 meetings	6 meetings	2 meetings	Number of public-private partnerships engaged	
1g) Advocate for evidence-based financing strategies (e.g., health insurance).	Conduct two stakeholder meetings	2 meetings	2 meetings	2 meetings	1 meeting	Number of FP financing options identified	78,661,547
1h) Advocate for increased FP resources from new and existing donors.	Conduct two meetings/ year with new and existing donors	2 meetings	2 meetings	2 meetings	1 meeting	Number of new and current donors supporting FP	
1i) Mobilize government and donor funds to cover all sector contraceptive commodity needs in the country.	Conduct one-day advocacy meetings with high-level decision makers from public sector	2 meetings	2 meetings	2 meetings	1 meeting	X amount of money mobilized annually (refer to annual NFPCIP budgets)	175,947,503
	Conduct one-day advocacy meeting with parliamentarians	2 meetings	2 meetings	2 meetings	1 meeting	Number of meetings held per year	
	Conduct one-day advocacy meeting with donors for funds to cover all sector contraceptive commodity needs in the country	2 meetings	2 meetings	2 meetings	1 meeting	Number of meetings held per year	

Advocacy and Communication Strategic Activities	Sub-activity	Annual Targets (Years 3 - 6)			Indicator	Total Cost Tshs (FY 2013-2016)
		Year 3	Year 4	Year 5		
2a) Identify and address policy barriers to the successful implementation of FP programs (e.g., task shifting, differences in MoHSSW and MoEVT policies).	Engage two consultants to review all policy barriers and suggest advocacy entry points to address them	2 consultancies			Assessment conducted and report developed and disseminated	349,289,954
	Task force one-day meeting	2 meetings				
	One-day meeting with MOH SMT	1 meeting				
	Translate document into Swahili	100 pages				
	Printing	1,000 English copies; 6,000 Swahili copies				
	Disseminate at central level	1 meeting				
	Disseminate at zonal level	1 meeting				
	Conduct advocacy meeting targeting key decision makers		1 meeting		Number of meetings held	5,824,000
2b) Conduct consultation meetings to ensure inclusion of FP in Long-Term Perspective Plan 2011-2025 and new development frameworks.	Conduct consultative meeting on position of FP in the LTPP	1 meeting			Number of meetings held	23,402,000
2c) Conduct consultations at district level to ensure FP features in district strategic plans.	Conduct zonal meetings with district decision makers	1 meeting			Number of meetings held per year	

Advocacy and Communication Strategic Activities	Sub-activity	Annual Targets (Years 3 - 6)			Indicator	Total Cost Tshs (FY 2013-2016)
		Year 3	Year 4	Year 5		
2d) Conduct targeted advocacy for implementation of the National Adolescent RH Strategy 2011-2015 to meet FP needs of youth.	Engage two consultants to review the strategy and suggest advocacy entry points	2 consultancies			Assessment conducted and report developed and disseminated	32,254,074
	Convene a national level dissemination meeting		1 meeting			
	Conduct one-on-one advocacy meetings targeting key decision makers			3 meetings	Number of advocacy meetings held	
<b><i>Strategic Result 3: Demand for FP services increased and sustained</i></b>						
3a) Conduct formative assessment on the barriers and facilitating factors on the use of modern methods of family planning.	Engage consultant to conduct a formative assessment on the barriers and facilitating factors on the use of modern FP methods	1 consultancy			Assessment conducted and report developed and disseminated	18,544,000
	Convene a national level dissemination meeting	1 meeting				
3b) Develop national family planning communication strategy that revitalizes Green Star.	Engage consultant	1 consultancy			Communication strategy developed	34,006,000
	Convene a technical review meeting	1 meeting				
	Translate strategy	30 pages				
	Print copies	500 copies				

Advocacy and Communication Strategic Activities	Sub-activity	Annual Targets (Years 3 - 6)				Indicator	Total Cost Tshs (FY 2013-2016)
		Year 3	Year 4	Year 5	Year 6 (1/2 yr)		
3c) Launch and implement a national FP campaign that revitalizes Green Star.	Conduct one national re-launch of the Green Star logo by high level Gov't of Tanzania official; include launch materials: 1,500 caps 500 t-shirts		Green Star launch			Green Star National Campaign launched	266,463,942
	Produce logos for branding of SDPs providing services	10,000 copies of Green Star logo				Number of public and private SDPs with Green Star logo	
	Brand all public and private SDPs providing FP services with Green Star logos	2,500,000 green star logos					
3d) Support/conduct coordinated demand creation campaigns in low-CPR districts/regions.	Establish task force for planning demand creation campaigns in low-CPR regions					Number of regional demand creation campaigns conducted	498,253,319
	Hold quarterly task force meetings	4 meetings	4 meetings	4 meetings	2 meetings		
	Conduct 4 demand creation campaigns in low-CPR regions.	1 meeting	1 meeting	1 meeting	1 meeting		
3e) Prepare, produce and broadcast radio and TV spots and programs on FP.	Design, produce, pre-test, and air TV and radio spots.	23,760 radio spots; 3,480 TV spots; 152 radio media buys; 12 TV media buys				Number of radio spots produced and aired Number of TV spots produced and aired	8,723,622,400

Advocacy and Communication Strategic Activities	Sub-activity	Annual Targets (Years 3 - 6)				Indicator	Total Cost Tshs (FY 2013-2016)
		Year 3	Year 4	Year 5	Year 6 (1/2 yr)		
3f) Produce and distribute revised print materials (e.g., posters, client education materials) to clinics and training centres.	Develop content, design, pre-test, print and disseminate materials	25,000 posters and brochures	25,000 posters and brochures	25,000 posters and brochures	12,500 posters and brochures	Number of materials produced Number of materials distributed to end users	683,733,037
3g) Utilize mobile technologies to increase demand and support continuation.	Sub contract mobile technology partners	360,000 SMS messages	360,000 SMS messages	360,000 SMS messages	180,000 SMS messages	Number of hits to the system	70,536,757
3h) Utilize electronic and social media fora to increase demand and support continuation.	Conduct national media orientation (1)	1 meeting	1 meeting	1 meeting	1 meeting	Number of electronic fora addressing FP	136,481,607
	Conduct regional media orientations	4 meetings	2 meetings	2 meetings	2 meetings	Number of subscribers	
3i) Promote FP in national events	Exhibit FP campaign at three national events (e.g., WPD, Saba Saba, Name Name)	3 events	3 events	3 events	3 events	Number of national events that promote FP	263,455,998
<b>Strategic Result 4: A coordinated network of FP champions established and supported</b>							
4a) Strengthen existing teams of champions at national, regional, district and community levels (e.g., politicians, community leaders, religious leaders, celebrities, media).	Engage a consultant to suggest best ways to coordinate the roles of champions	1 consultancy				Assessment conducted; report developed and disseminated	22,880,000
	Dissemination meeting	1 meeting					
4b) Update/adapt FP champion training curriculum for all levels.	Engage a consultant to review FP champion training curriculum	2 consultancies; 1 meeting				Training curriculum reviewed and produced	84,581,000
	Conduct technical review meeting to get stakeholders' inputs	1 meeting					

Advocacy and Communication Strategic Activities	Sub-activity	Annual Targets (Years 3 - 6)			Indicator	Total Cost Tshs (FY 2013-2016)
		Year 3	Year 4	Year 5		
4c) Conduct FP champion orientation workshops.	Conduct zonal workshops to build capacity of FP champions	240 champions oriented in 8 zone; 8 workshops	240 champions oriented in 8 zone;	240 champions oriented in 8 zone;	Number of champions oriented per zone	616,943,692
4d) Conduct national and regional media orientation workshops.	Conduct zonal media workshops to orient journalists on FP reporting	8 workshops	8 workshops	8 workshops	Number of media champions (journalists) oriented per zone	103,839,096
4e) Establish and sustain a coordination mechanism for media to liaise with FP champions.	Conduct one FP stakeholders and media meeting	1 meeting	1 meeting	1 meeting	Coordination mechanism in place	30,651,693
4f) Establish and implement a mechanism to monitor/track champion activities at all levels.	Conduct semi-annual meetings	2 meetings	2 meetings	2 meetings	Monitoring mechanism established	50,931,049
<b>Strategic Result 5: Adequate district resources mobilized to support delivery of quality FP services at facility level</b>						
5a) Conduct advocacy to ensure availability of equipment, infrastructure and supplies for FP provision (coordination meetings of RCHS with PHSDP, RHMT, CHMT, and implementation partners to improve FP services)	Conduct two-day regional and national quarterly/annual coordination meetings for RCHS with PHSDP, RHMT, CHMT, and implementation partners to improve FP services	2 meeting	2 meeting	2 meeting	Number of facilities supported with infrastructure upgrades	152,205,913
<b>Advocacy and Communication Total (in Tshs):</b>						<b>13,800,381,345</b>

**Strategic Action Area V: Health Systems Management**

This SAA addresses the need to reinforce management capacity at all levels—central, regional, and district council levels. Effective management systems ensure that financial resources are made available in a timely manner to all implementing levels, coordinate with other governmental ministries and implementing partners, track activities and deliverables needed to achieve plan objectives, and use the HMIS to monitor and evaluate programs to improve performance. Efforts to enhance use of data for decision-making (D-4-D) and improve quality assurance mechanisms have received prominence in this updated NFPCIP, including trainings to facilitate D-4-D scale-up to districts nationwide.

Health Systems Management Strategic Activities		Annual Targets (Years 3 – 6)				Indicator		Total Cost Tshs (FY 2013-2016)
		Sub-activity	Year 3	Year 4	Year 5	Year 6 (½ yr)		
<b>Strategic Result 1: The capacity of RCH at all levels to effectively lead, manage and coordinate the strengthened FP program</b>								
1a) Engage RCH staff in learning opportunities such as internal and external study tours as well as national and international meetings.	Support internal and external study tours for 3 RCH staff	2 study tours supported	2 study tours supported	2 study tours supported	1 study tour supported	Number of study tours supported	436,690,583	
	Support one staff to attend international FP short course for six weeks	one staff supported to attend short course	Number of staff supported to attend short courses internally and externally					
	Support 3 RCHS staff to attend international meetings for one week	3 staff supported to attend international meetings	Number of staff supported to attend international meetings					
1b) Procure two vehicles for RCHS to strengthen supportive supervision.	Procure two standard Toyota Land Cruisers	1 vehicle	1 vehicle			Number of vehicles procured	572,670,000	

Health Systems Management Strategic Activities	Sub-activity	Annual Targets (Years 3 – 6)			Indicator	Total Cost Tshs (FY 2013-2016)
		Year 3	Year 4	Year 5		
1c) Strengthen RCHS IT unit.	Revive Reproductive and Child Health Services website	1 consultancy			Number and types of IT equipment procured	111,163,403
	Technical meeting to review the Web-site	1 meeting				
	Support annual subscription cost for RCHS website	5-year sub-scription.			Hosting fees for RCHS website paid for 5 years	
	Recruit and retain RCHS IT system administrator	12 months	12 months	12 months	IT systems administrator recruited and retrained	
	Procure equipment—both hardware and software	2 computers plus accessories, 1software application, 1 server procured			Number and types of IT equipment procured	
<b>Strategic Result 2. Monitoring and co-ordination of the family planning program at national level improved</b>						
2a) Develop and implement a mechanism and tools to monitor implementation of the family planning program at the national level.	Develop web-based database to monitor implementation of family planning programs at the national level	1 consultancy			Functioning web-based database in place	32,449,193
	Maintain NFPCIP database (software updates/ debugging and cleaning)	annually	annually	semi-annually	NFPCIP maintenance costs paid annually	

Health Systems Management Strategic Activities	Sub-activity	Annual Targets (Years 3 – 6)				Indicator	Total Cost Tshs (FY 2013–2016)
		Year 3	Year 4	Year 5	Year 6 (½ yr)		
2b) Conduct periodic progress reviews (semi-annual) of the NFP/CIP.	Orient FP partners on how to use Web-based RCHS database: 1 per zone(8), central level(10), 1 per partners(50)	50 participants trained; 2 training-sessions				Number of orientation meetings held Number of partners orientated	80,639,844
	Produce semi-annual reports to senior MoH/SW management using executive dashboard for monitoring NFP/CIP implementation	twice/year	twice/year	twice/year	twice/year	Number of semi-annual reports completed	
	Conduct semi-annual meetings involving 50 participants from RCHS at all levels	twice/year	twice/year	twice/year	once/year	Number of semi-annual meetings convened	
2c) Conduct monthly National FP Working Group meetings to improve coordination of family planning activities.	Conduct monthly National FP Working Group meetings	12 meetings once/month	12 meetings once/month	12 meetings once/month	6 meetings once/month	Number of meetings conducted on a monthly basis	29,390,316
2d) Develop and implement a computerized inventory of staff to track (i) trainers & (ii) service providers trained in FP by type of training, by cadre, by district, by training organization, so as to identify gaps and ensure equitable distribution.	Engage a consultant to develop a computerized inventory of staff	1 consultancy				Computerized inventory of staff developed	44,548,355
	Conduct one-day orientation on training database: 1 per zone(8), central level(10), 1 per partners (50)	25 partners trained; 1 training-session	25 partners trained; 1 training-session			Number of participants attended the meetings	

**Strategic Result 3. Increase utilization of program data and research evidence to inform better decision making and improve effectiveness of FP programs at all levels**

Health Systems Management Strategic Activities	Sub-activity	Annual Targets (Years 3 – 6)			Indicator	Total Cost Tshs (FY 2013-2016)
		Year 3	Year 4	Year 5		
3a) Conduct trainings on data for decision making for staff managing FP data at all levels.	Conduct a three day training for RCH staff at all levels: 5 per district(148 districts), 2 per region (26 regions)	264 staff trained; 8 training sessions	264 staff trained; 8 training sessions	264 staff trained; 8 training sessions	Number of people trained on D-4-D by district	547,887,067
3b) Develop a national family planning research agenda.	Engage a consultant to develop the national family planning research agenda	1 consultancy			Research agenda developed	106,285,348
	Conduct two-day technical review meetings: 30 participants	3 meetings				
	Print the research agenda	1,000 copies			Number of copies printed	
	Disseminate at central level		1 meeting		Dissemination coverage; numbers/types of institutions represented at the dissemination meeting	
3c) Conduct/organize annual national forums on FP to facilitate exchange of information, leverage resources, synchronize activities, and share lessons strengthened.	Conduct two-day preparatory meeting: 10 participants	2 meetings			National forum on FP convened	143,530,915
	Organize a two-day meeting: 150 participants	2 meetings	2 meetings	2 meetings		

**Strategic Result 4: Quality and efficiency of the delivery of FP services improved at facility level**

Health Systems Management Strategic Activities	Sub-activity	Annual Targets (Years 3 – 6)			Indicator	Total Cost Tshs (FY 2013-2016)
		Year 3	Year 4	Year 5		
4a) Supportive supervision for FP service delivery strengthened.	Revise supportive supervision tools for FP at all levels to include component to assess training outcomes (one-day workshop)	1 workshop			Supportive supervision tools revised/updated	199,831,862
	Print/re-print supportive supervision tool	48,000 printed	24,000 printed		Number of supportive supervision tools printed	
	Conduct three-day supervision trainings: 166 participants	90 staff; 3 training sessions	75 staff; 3 training sessions		Number of RCH staff trained per year on supportive supervision	
4b) Design and implement appropriate QI/QA approaches to improve quality of FP service provision at facility and community levels.	Convene a five-day workshop to develop QI/QA approach and tools for FP service delivery	1 workshop			QI/QA approach and tools for FP service delivery developed	336,420,020
	Pre-test approach and tools in select districts (Four teams for four zones, each 10 days; each team = 3 people)	4 teams; once				
	Conduct quarterly COPE introduction and COPE follow up	4 meetings	4 meetings	2 meetings	Number and types of problems solved in the action plans	
	Scale up approach and tools at zonal level(8 zones) ZRCHCo; 26 RCHCO		once in each zone		Number of zones where scale-up has taken place

## Resource Mobilization Framework

For the remainder of the NFPCIP implementation period, efforts to acquire the resources to successfully implement the planned activities to achieve the One Plan target will need to be continued and heightened. The main sources of funding for the current program include the Tanzanian government; the Basket funds managed through the MTEF, through which most multilateral and bilateral donors currently contribute; and ‘out-of-basket’ funds from a few donors, most notably the United States Agency for International Development (USAID), the Department for International Development (DFID), Austrian AID (AusAID), and the United Nations Populations Fund (UNFPA). Other sources of support include funding from foundations and individual donations, NGOs and FBOs, as well as costs recovered through fees for service by private-sector providers. FP2020 provides another opportunity that can be used to mobilize additional resources to support specific priorities highlighted in the country plan with potential for high and rapid impact.

In implementing the NFPCIP, the MoHSW will provide guidance to ensure that annual budget requests to the MTEF from the district levels include FP so that Basket funds can be used to support FP. Recent recommendations from the Tanzania Parliamentary Association for Population and Development call for a larger portion of Basket funds to be spent on FP commodities and for creating an independent FP line item in the budget guidelines. Such actions are currently underway under the leadership of the MoHSW.

In addition, a resource mobilization strategy for family planning will be developed to guide the national efforts to increase the resource pool with consideration of the private sector and other non-traditional family planning funders. Expanding involvement of the private sector, including building on current social-marketing programs, will also be promoted to increase resources for FP. NGOs and FBOs can also play a greater role by mobilizing and allocating resources for implementing the NFPCIP.

## Monitoring and Evaluation of NFPCIP

Subsequent to the launch of the NFPCIP in 2010, a paper-based monitoring tool was developed to provide information and facilitate dialogue and decision making on the implementation of the National Family Planning Program. Thereafter, a web-based platform was developed and launched in 2013. This password-protected, web-based NFPCIP monitoring tool [www.nfpcip.rchs.go.tz](http://www.nfpcip.rchs.go.tz) collects quarterly data on financial expenditures, source of funds, geographic location and coverage of implemented activities, and output-level results based on indicators (see the Implementation Framework, Strategic Action Area V: Health Systems Management, for indicators). A specific data base will also be developed to track donor's financial contributions for implementation of country FP2020 priorities on a quarterly basis.

The information generated from these quarterly data collection efforts are routinely used by the central level MoHSW and various stakeholders (i.e., the FP Working Group and development partners) to track progress in mobilization of financial resources for implementation of the program and achievement of results against set program targets.

A quarterly report can be generated from the web-based system and typically includes the following list of indicators.

- ◆ Overall expenditures against financial targets
- ◆ SAA expenditures against financial targets
- ◆ SR expenditures against financial targets
- ◆ Expenditures by source of funding
- ◆ Expenditures by geographical location
- ◆ Source of funding for contraceptive commodities
- ◆ Quantity of contraceptives procured by method
- ◆ The number of providers trained by type against program targets
- ◆ List of activities with no reported implemented activities (i.e., implementation gaps)

This information is complemented by reports on the number of acceptors at various service delivery points, including the facility-level, the community-level, and at outreach events. Ultimately, successful implementation of the NFPCIP will be measured in terms of its contribution to increasing the CPR to be provided by the next DHS, planned for 2014–2015.

Appendix A: Annual Resource Requirements by Strategic Action Area, 2012 to 2015

Strategic Action Area I: Contraceptive Security

Index	Activity	Activities to Achieve Strategic Action (i)	Required Input			2012 (Year 3)			2013 (Year 4)			2014 (Year 5)		
			Item Code (ii)	Description of Input (iii)	Measure Unit (iv)	Number of Units (x)	Unit Cost of Input (v)	Estimates (v) x (x) = (xi)	Number of Units (xii)	Estimates (v) x (xi) = (xiii)	Number of Units (xiv)	Estimates (v) x (xii) = (xv)	Number of Units (xvi)	Estimates (v) x (xv) = (xvii)
2a)	Convene quarterly meetings with team of logistic and supply chain focal persons from MSD, RCHS, PSS, World Bank, JSI Deliver and the Procurement Unit, to discuss technical issues pertaining to forecasting, procurement, storage, distribution and reporting on Family Planning commodities..	Conduct meetings with relevant members (MSD RCHS, PSS, World Bank, JSI Deliver and the MOHSA Procurement Unit)	3560137	Food & Refreshments	person-days	20,000	60	1,200,000	60	1,345,200	60	1,507,969	30	845,217

## Appendix C: Expenditures by Strategic Action Areas

The following tables outline expenditures during YR 1 and 2 of the NFPCIP by SAA and strategic action. "Others" represent activities that were not originally aligned to the NFPCIP strategic actions.

<b>SAA I: Contraceptive Security</b>		
<b>Strategic Activities</b>	<b>Expenditures</b>	
	<b>YR 1 (July 2010 to June 2011)</b>	<b>YR 2 (July 2011 to June 2012)</b>
Strategic Action 1: Ensure adequate supply of contraceptive methods at all levels.	34,519,225,471	50,226,624,613
Others	-	21,548,738
<b>SAA1 Total TZS</b>	<b>34,519,225,471</b>	<b>50,248,173,351</b>

<b>SAA II: Capacity Building</b>		
<b>Strategic Activities</b>	<b>Expenditures</b>	
	<b>YR 1 (July 2010 to June 2011)</b>	<b>YR 2 (July 2011 to June 2012)</b>
Strategic Action 1. Increase availability and improve distribution of FP service providers	-	-
Strategic Action 2. Implement task shifting to all levels of the health system	43,639,647	176,146,252
Strategic Action 3. Improve provider capacity to deliver FP services	1,290,371,519	2,771,896,307
Strategic Action 4. Retain retiring and rehire retired health workers	-	19,531,735
Strategic Action 5. Include non-coercive FP indicators in pay-for-performance initiative	47,602,560	106,416,042
Strategic Action 6. Build capacity for FP advocacy at regional and district levels	190,905,604	39,216,660
<b>SAA II Total TZS</b>	<b>1,572,519,330</b>	<b>3,113,206,997</b>

<b>SAA III: Service Delivery</b>		
<b>Strategic Activities</b>	<b>Expenditures</b>	
	<b>YR 1 (July 2010 to June 2011)</b>	<b>YR 2 (July 2011 to June 2012)</b>
Strategic Action 1. Strengthen systems, facilities, infrastructure to support FP services at appropriate levels	659,976,768	484,865,752
Strategic Action 2. Foster cost-effective integration and referral of FP with HIV, ANC, PNC, and PAC services for men, women, and youth	87,555,984	700,614,831
Strategic Action 3. Strengthen and increase availability of integrated CBS	751,605,745	1,501,355,336
Strategic Action 4. Increase awareness and acceptability of FP services by males	92,997,551	172,983,515
Strategic Action 5. Increase availability of FP-related YFS	289,541,084	25,282,746
Strategic Action 6. Strengthen, expand FP through private sector (includes NGOs, FBOs, social marketing, commercial sector, private clinic, etc.)	319,829,700	-
Strategic Action 7. Develop, promote, implement approaches to ensure increased access to FP for low-income and vulnerable groups	240,349,788	1,278,419,090
Strategic Action 8. Update/review and disseminate the FP Provision Policy Guidelines and Standards	-	174,579,245
Others	-	682,814,463
<b>SAA III Total TZS</b>	<b>2,441,856,620</b>	<b>5,020,914,977</b>

<b>SAA IV: Advocacy and Strategic Communication</b>		
<b>Strategic Activities</b>	<b>Expenditures</b>	
	<b>YR 1 (July 2010 to June 2011)</b>	<b>YR 2 (July 2011 to June 2012)</b>
Strategic Action 1. Organize advocacy to prioritize FP with separate budget line for FP	108,524,911	21,859,905
Strategic Action 2. Ensure inclusion of FP in major national policy documents, implementation	68,324,549	16,755,165
Strategic Action 3. Conduct and sustain advocacy targeting development partners and donors to raise level of FP support	81,877,891	117,318,070
Strategic Action 4. Reposition, reinstate Green Star logo as a National FP program	-	-
Strategic Action 5. Conduct sustained national FP advocacy campaign to provide accurate information, address rumors, misconception promote male involvement, influence social values, and reach vulnerable groups.	559,126,282	1,586,051,898
Strategic Action 6. Establish a network of community-level champions (community leaders, religious leaders, politicians) to reassure the population of the acceptability and benefits of FP	63,132,895	63,983,986
Strategic Action 7. Establish a network of national-level champions to reassure the population of the acceptability and benefits of FP	17,617,410	38,407,625
Others	-	136,650,339
<b>SAA IV Total TZS</b>	<b>898,603,938</b>	<b>1,981,026,987</b>

<b>SAA V: Health Systems Management</b>		
<b>Strategic Activities</b>	<b>Expenditures</b>	
	<b>YR 1 (July 2010 to June 2011)</b>	<b>YR 2 (July 2011 to June 2012)</b>
Strategic Action 1. Strengthen leadership and management capacity at RCHS at all levels	217,683,532	132,930,692
Strategic Action 2. Develop, maintain, coordinate, implement an M&E system aligning inputs to outputs at all levels, national through district	176,557,895	82,896,578
Strategic Action 3. Strengthen forums on FP to facilitate exchange of information, leverage resources, synchronize activities, and share lessons	4,351,172	1,693,070
Strategic Action 4. Establish existing funding levels and applications (public and private sectors) as a basis for resource mobilization	1,487,580	30,756,100
Others	-	33,783,200
<b>SAA V Total TZS</b>	<b>400,080,178</b>	<b>282,059,639</b>
